

GENESIS
HOCKEY

Selection Policy

Genesis Hockey Club has a policy of mixed ability teams up to and including 6th class teams; the Club does not select based on ability at this level. Players participate in various matches and blitzes throughout the season.

As the players reach secondary school and the standard of hockey increases, training continues to be in mixed ability groups but teams for matches are selected on merit. Each player will be on a team and will get an equal number of games playing with those of similar ability. There are a number of factors taken into consideration in team selection including ability, progression, player position, attitude and effort and attendance at training and matches.

Teams are always open to change throughout the season as we acknowledge that players progress at different rates and we ask parents to respect the coach's opinion. Please note that players asked to play for higher teams must be released by their own team.
