

# Club Draws Overview

Through the LocalLotto.ie Draws system, your supporters will be able to register themselves for any draw or raffle that your club or organisation is running. They simply log on to your web site, to which we have linked the system, and choose the number of draws or raffles they want to enter, fill in the details that you need from them, choose to pay by credit or debit card and complete the registration. You, the club, then get these details from your administration panel, they are also e-mailed to your club administrators. You will be able to print off each on-line draw or raffle ticket.

Each member then also has their own on-line section to check all details on their own draw details.
